WIN!: IHIN Patient Query Implementation

Who: Mary Greeley Medical Center's patients

When: 2015

Where: We are currently querying IHIN for each one of our patient admissions.

Why: This ensures that we can receive updated and timely information.

What: Mary Greeley Medical Center has seen benefit in our connection with the IHIN. So far, year to date (2015), we have exchanged over 42,000 records with the IHIN. These exchanges help ensure that quality, continuum of care is occurring for our patients.

Benefits: Staff and physicians will have an up-to-date and accurate medical record to help provide the best care for our patients.
